

The image shows three people, two women and one man, smiling and standing in front of a wall. They are wearing bright orange t-shirts with the 'SupaMoto' logo, which features a white flame icon above the text. The wall behind them is orange and has the 'zero mission' logo in white at the top left. The man on the left is giving a thumbs-up. The woman in the middle is holding a red and white portable stove. The woman on the right is wearing glasses. The overall scene is bright and positive, representing the SupaMoto project.

zero mission

Società per la Cremazione Torino

Hereby offsets 814 ton CO₂e for emissions arising from company operations in 2023. The emissions are offset through cookstoves in the project Efficient Cookstoves With Digital Technique in Zambia.

The stoves are very efficient, which reduces both the consumption of fuel and the time for cooking. The climate benefit is fully verifiable and traceable thanks to the fact that both the use of the stove and the purchase of fuel pellets are tracked and recorded digitally. In addition to the climate benefit, the smoke gases that are normally released when cooking over an open fire are greatly reduced. The indoor climate becomes much better, which improves people's health considerably.
